Job Summary

The primary purpose of the RN Case Manager is to assess patients, develop a plan in response to identified needs, and coordinate the appropriate services, all in collaboration with the physician and other health care professionals. Job responsibilities include some of the following: provides services requiring substantial and specialized nursing skill, in accordance with the plan of treatment signed by the physician, evaluates and regularly reevaluates the nursing needs of the patient; initiates, develops, implements, and makes necessary revisions to the patient's plan of care, assesses the patient's continual care needs, addresses all issues or concerns regarding the plan of care and documents rationale for actions taken, initiates diagnostic, preventive, and rehabilitative nursing procedures as appropriate to the patient's care and safety. Makes referrals to other disciplines as indicated by the patient's needs or documents rationale for not doing so, Coordinates the total plan of care and maintains continuity of patient care by conferencing with other health professionals assigned to the same patients. Attends patient care conferences. Initiates patient care conferences for complex and/or multidisciplinary patients whenever needed. Performs ongoing clinical record review for caseload ensuring that appropriate services are given and that documentation regarding the client is complete and meets agency requirements.

Skills and Knowledge

- Able to read, write, speak, and understand the English language.
- Possess the ability to deal tactfully with personnel, residents, family members, visitors, government agencies/personnel and the general public.
- Function independently and have flexibility, personal integrity, and the ability to work effectively with older adults, personnel, and support organizations
- Ability to design and implement appropriate and meaningful programming

The above is a summary of the position, it in no way states or implies that these are the only duties you will be required to perform. If selected for the position, you will receive a full job description.

Required Qualifications

- High School Diploma/GED

- Must possess a degree in nursing; must be licensed to practice as a registered Nurse (RN) in the state of Michigan.
- Must have a minimum of 1 year of nursing experience.
- Previous Home Health Case Management experience preferred.
